

total square footage: 670

Architecture

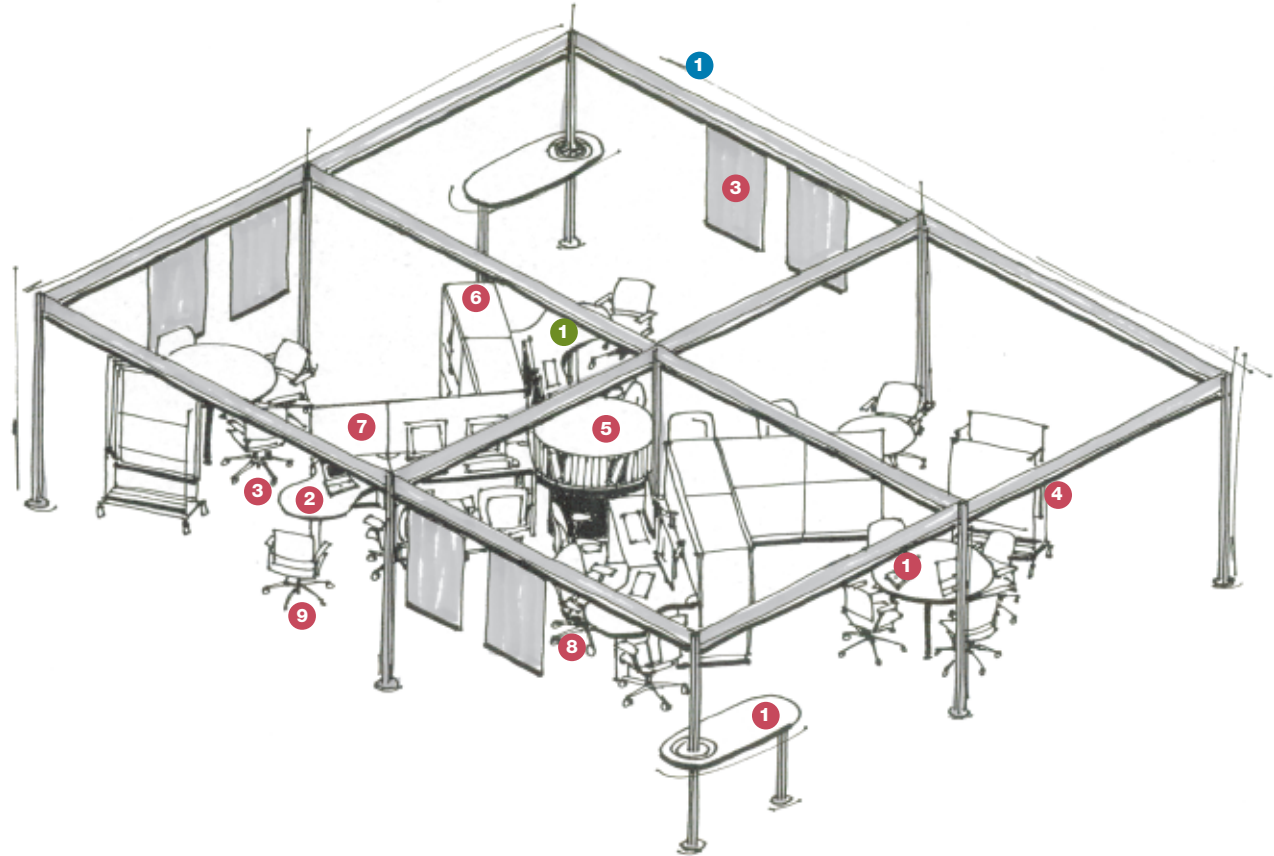

1. Create boundaries via architectural framework without jeopardizing visual access from any direction. Use boundaries to capture and communicate group information **CP IV**

Products to consider: Pathways® Post and Beam

Furniture

1. Accommodate both sit-down and stand-up interactions everywhere **CP RC**
2. Enhance information sharing with screens and curved worksurfaces that allow easy, comfortable interaction **CP BC**
3. Keep frequently used information posted in work area via tackable surfaces **IV CP**
4. Allow shared information to be easy to move using mobile easels and markerboards **IV CP**
5. Provide ample storage for charts and supplies **CP IV**
6. Utilize storage units to divide space **BC CP**
7. Insure ease of adds, moves and changes by specifying furniture systems that are flexible and simple **RC**
8. Provide ergonomic seating to accommodate multiple users and ensure health and safety of healthcare professionals with easy to use adjustments. Allow for easy cleaning and/or replacement of upholstered parts **RC**
9. Accommodate guests and healthcare workers with ergonomic, lightweight and economical seating. Allow for easy care **CP HS**

Products to consider: Universal Storage, Tethered Capsule Worksurfaces, Huddleboard™ easels and markerboards, Context®, Leap® seating, Cachet™ seating

Technology

1. Provide plug and play access everywhere healthcare associates work alone as well as together **CP**

Products to consider: Technology Hubs

Managing the healthcare environment strategically

Creating and managing a healthcare environment demands the thoughtful planning of numerous diverse and interconnected issues:

- Define goals and measure results in line with corporate strategies
- Insuring flexibility, dependability, adaptability and environmental responsibility by planning and specifying with architecture, furniture and technology
- Combine efficiency and effectiveness by focusing on how healthcare staff actually work and by applying the appropriate planning principles

Each healthcare work area addresses these principles at varying levels, based on need. This Nurses Hub maps out as follows:
