

- Balance Privacy
- Make Work Visible
- Support Diverse Workstyles

② Team Space

It's about: A highly private space for developing company strategy, early product concepts, mergers and acquisitions, organizational changes.

Balance Privacy

Architecture

- A** I-line Moveable Wall provides visual and acoustical privacy.
- A** Curtains on Pathways Post and Beam hide displays not ready for viewing. They also hide seating and equipment not in use.

Technology

- T** RoomWizard web sign supports privacy needs by indicating "team accessibility" to non-team members.

Make Work Visible

Architecture

- A** Pathways Post and Beam and I-line Moveable Wall create a structure for information layering and information persistence.

Furniture

- F** Huddleboards, markerboards, and tackable surfaces allow teams to record and capture their work.

Technology

- T** Polyvision CopyCam records information, allowing users to remember and revisit their work.

Support Diverse Workstyles

Furniture

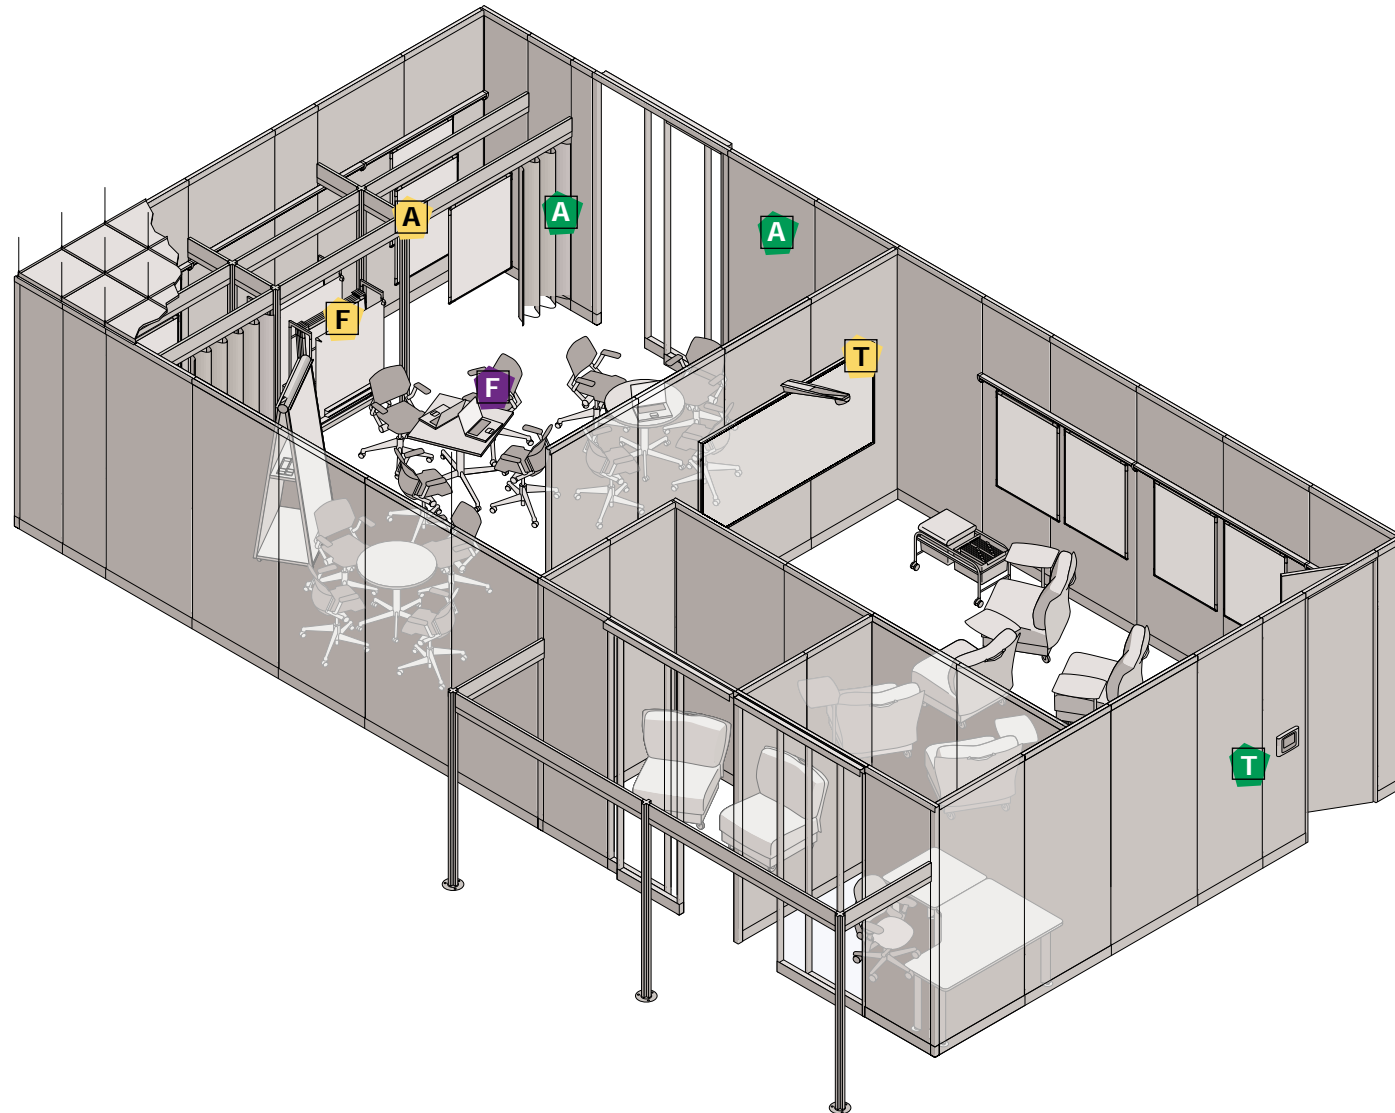

- F** Mobile tables and a variety of seating supports team work activities.
