

- Balance Privacy
- Support Diverse Workstyles

3 Community Space

It's about: A place for visitors to “camp out” and perform a variety of tasks.

Balance Privacy

Architecture

A Pathway Post and Beam provide space division and moderate visual privacy.

A I-line Moveable Wall provides visual and acoustical privacy.

Furniture

F Mobile screens enable users to negotiate the level of privacy they need.

Support Diverse Workstyles

Architecture

A Pathways Post and Beam manages power and communications from floor-to-hub for quick and easy access.

Furniture

F Mobile tables, carts, and seating are flexible to support a variety of work and workstyles.

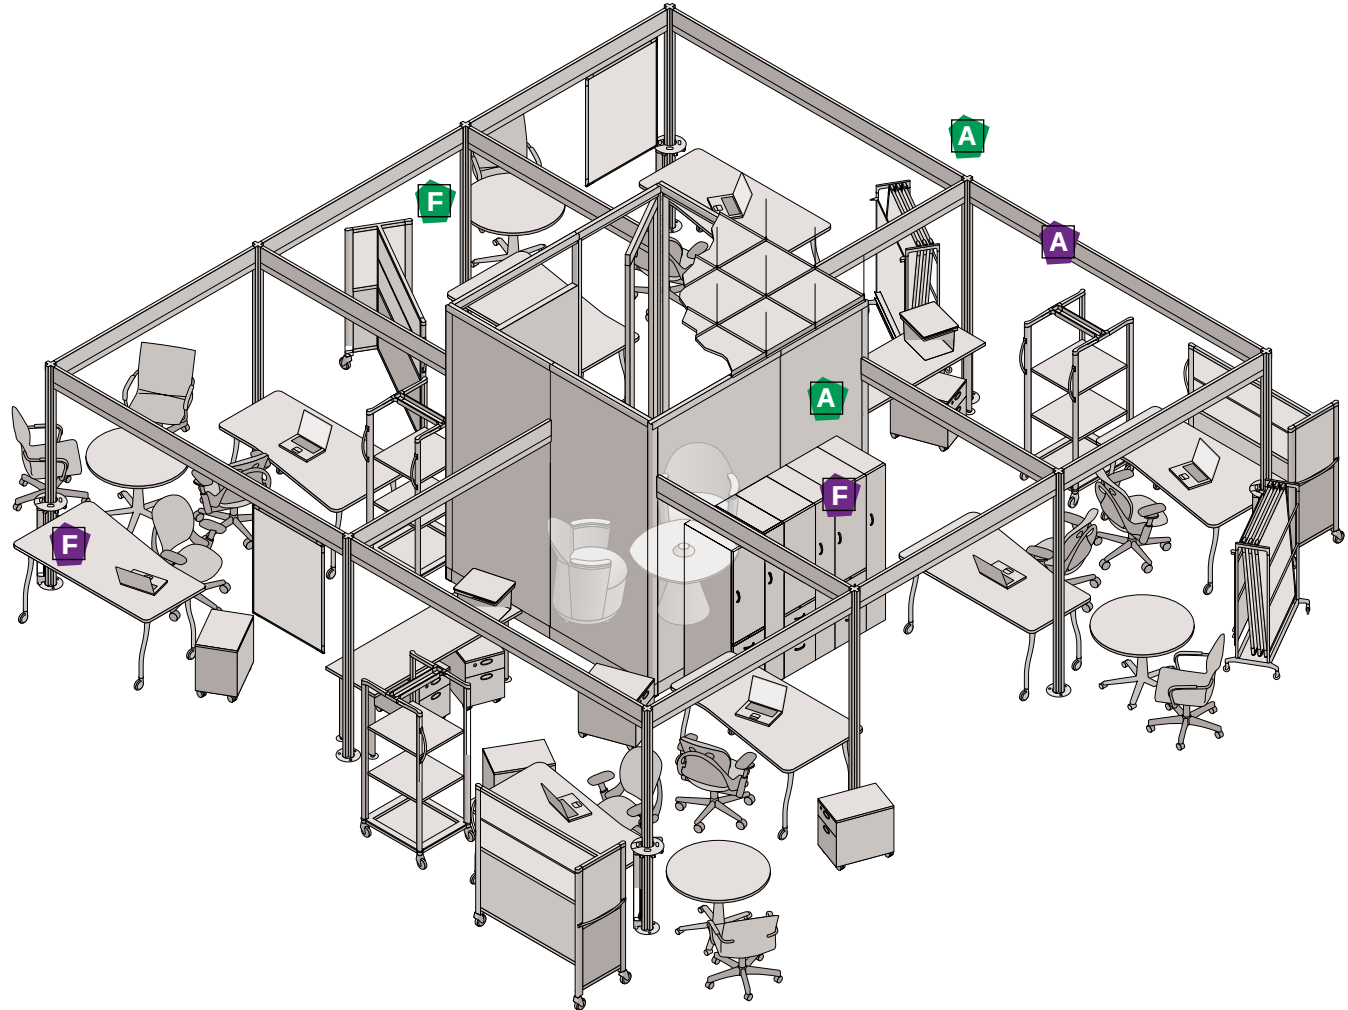

F Turnstone lockers provide security for short-term storage.
