

Building Blocks

- Balance Privacy
- Make Work Visible
- Manage Connections
- Support Diverse Workstyles

6 Home Base

It's about: A home base where it is easy to share information.

Balance Privacy

Architecture

A Pathways Post and Beam creates space division.

Furniture

F Mobile screen enables users to negotiate the privacy they need.

F Huddleboard helps users convey their availability or desire for privacy.

Make Work Visible

Architecture

A Pathways Post and Beam provides a structure for visual display.

Furniture

F Huddleboard enables users to make notes and share information with others.

Manage Connections

Furniture

F Pathways Post and Beam manages power and communications from floor-to-hub for quick and easy access.

Support Diverse Workstyles

Furniture

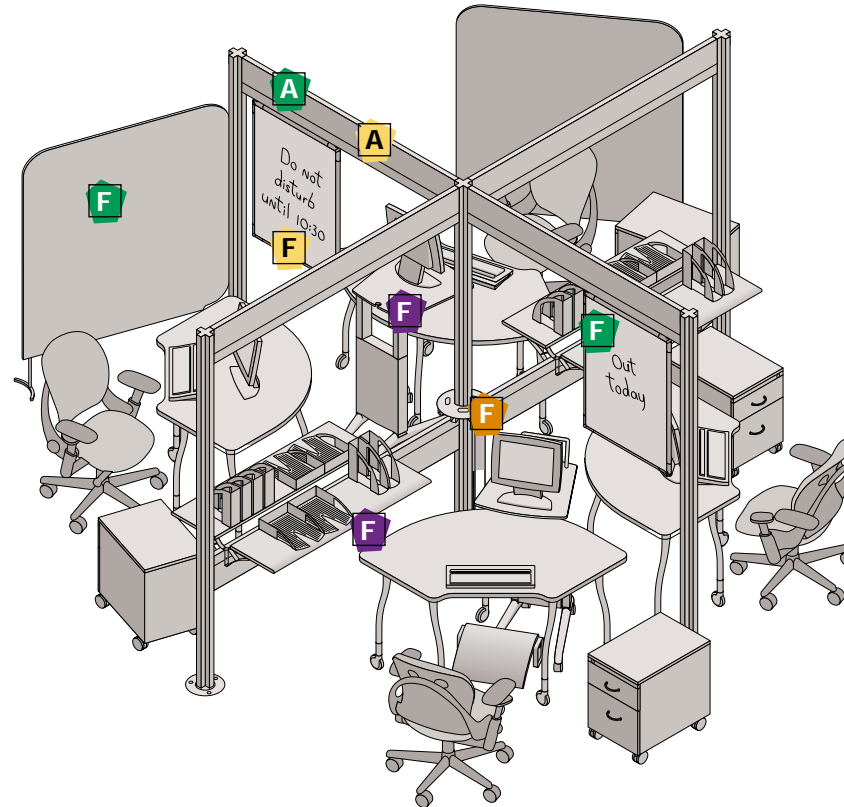

F The combination of Emerge Communicator, Pathways shelf, and mobile tables accommodates a wide range of workstyles for computer viewing distance, access to reference materials and comfortable arm positions.
