

Building Blocks

- Balance Privacy
- Make Work Visible
- Manage Connections
- Support Diverse Workstyles

9 Home Base

It's about: A home base for people who do most of their work in other locations, such as team rooms.

Balance Privacy

Architecture

A Pathways Post and Beam creates space division.

Furniture

F Mobile screens enable users to negotiate some visual privacy as needed.

Make Work Visible

Architecture

A Pathways Post and Beam provides structure for markerboards.

Furniture

F Markerboards allow people to capture and share information with others.

Manage Connections

Architecture

A Pathways Post and Beam manages the power and communications from floor-to-hub and through fence for quick and easy access.

Support Diverse Workstyles

Furniture

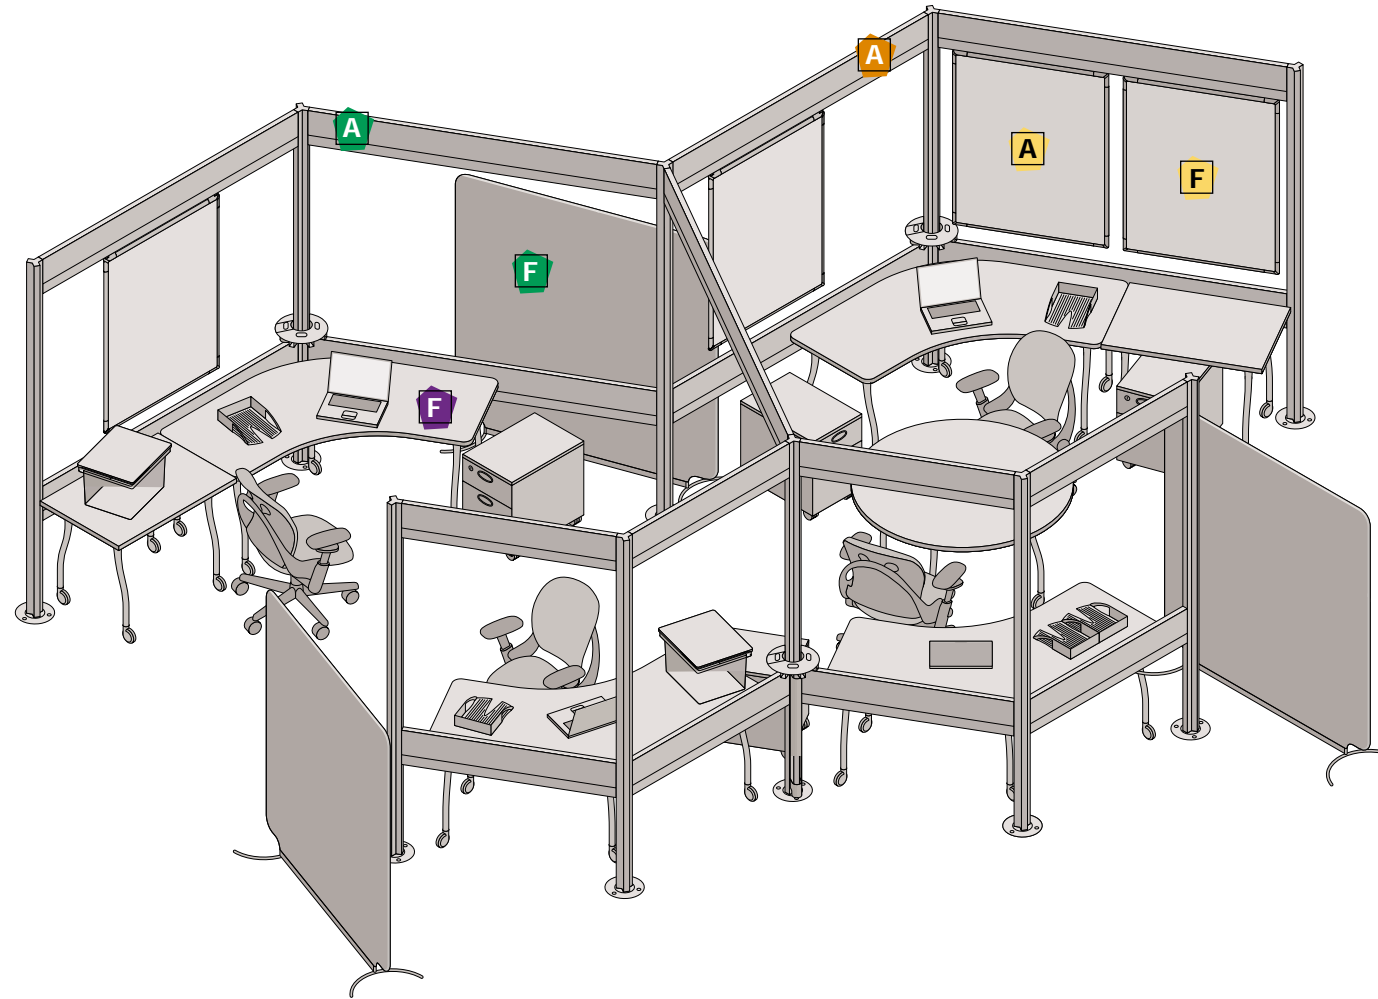

F Mobile tables and storage support individual work and can be moved to accommodate a wide variety of work activities and styles.
