

If you like Topex® Fluoride Foam, you'll love these Sultan products...

**Topex® APF Fluoride Gel**  
Thixotropic formulation remains in the tray, reducing fluoride ingestion. Fast, 60-second application. Available in five great Topex flavors.

**DuraShield® 5% Fluoride Varnish**  
Unit dose application with an UltraBrush™ prevents separation of fluoride. Sets on contact with saliva, lasts up to eight hours.

**Topex® Topical Anesthetic**  
Quick onset delivers maximum strength 20% benzocaine for fast, temporary relief of pain. Reduces salivation, keeping gel active longer. Seven great flavors!

**Topex® Dual Arch Fluoride Trays**  
Its natural arch and more defined occlusal anatomy helps force fluoride onto all biting and interproximal tooth surfaces. Locking handles allow for easy placement and removal. Available in four sizes.

**Topex®**  
BETTER TASTE  
GUARANTEE!

# The most flavorful way to fight cavities.

It's a fluoride taste sensation! Topex® APF Fluoride Foam comes in five, delicious Topex® flavors\*—strawberry, spearmint, grape, Bubble Fun®, and Orange Dream™.

And with its 60-second application, Topex Fluoride Foam is a breeze to use. Its dense consistency provides excellent coverage, yet stays in the tray under bite pressure... so it won't gag patients or clog your suction system.

Best of all, fluoride foam works... 1.23% acidulated phosphate fluoride with a 3.5pH enhances fluoride uptake in enamel. And at about 110 applications per can, Topex Fluoride Foam is a great value, too—costing only pennies per treatment.

**To order Fluoride Foam, contact your dental supply dealer or visit [www.sultanhealthcare.com](http://www.sultanhealthcare.com).**

\*For patients with ceramic restorations, neutral mixed berry is also available.
