

**RIGID.  
ROCK-HARD.  
QUICK.  
TASTY.  
EASY.**

**LESS MONEY.**

Genie™ Bite's superior performance, coupled with an extraordinarily low cost, makes it the ideal choice among bite registration materials.

It's fluffy, moussy consistency stays put, never slumps and enables great precision. Also, it has two set times (60 sec and 90 sec), allowing you to work as fast as you want. Genie Bite is easy-to-remove, easy-to-trim and sets rock hard with perfect accuracy—your lab will thank you for it! Your patients will love its fresh minty taste.

It's hard to imagine that something this reasonably priced offers so many advantages, but it's a fact that's demonstratively true. Just send us a cartridge of your Blu-Mousse® material and we'll send you, at no obligation, a free sample of Genie Bite...and you can see for yourself. As soon as you use it, you'll notice the difference, so will your patients and so will your bottom line.

To order Genie Bite or for information about the trade-in offer, contact your dental supply dealer, log on to [www.sultanchemists.com](http://www.sultanchemists.com) or call (800) 637-8582.

Visit us at the upcoming  
ADA meeting at  
Booth #1926.
