

“I’d like to thank the DENTAL ADVISOR™ for recognizing real talent.”

## Critics give Genie™ Ultra Hydrophilic Impression Material the “thumbs up” in overall performance.

The reviews are in! And, Genie has scored big time with the DENTAL ADVISOR™, receiving 5 +’s for overall performance...the highest rating a product can receive!

Genie’s ultra hydrophilic formulation is more forgiving in oral environments. In a recent study performed by a top University, Genie was found to flow better under pressure<sup>1</sup> than leading brands. This means better coverage of the prepared teeth giving you better results. In fact, 87% of Dentists who had purchased Genie said they would re-order.<sup>2</sup>

Dental Assistants love that Genie’s heavy body extrudes like a regular body material. Dentists love the option of the *super-fast* Rapid Set (2:10) or Standard Set (4:30). And who wouldn’t love the blast of berry flavor in every cartridge!

With Genie you’ll enjoy better handling and top performance at a price you will love.

Call your dealer today and roll out the red carpet for this award winning product!
