

Say good-bye to splatter and chatter with Upgrade!®

You'll feel the difference as soon as you start using the Upgrade® Disposable Prophyl Angle—with its compact head and neck, you'll have better visibility and access. A non-slip ergonomic grip ensures extraordinary tactile sense and control. And best of all, Upgrade's beveled gearing runs cooler, quieter and smoother, with less vibration and hand fatigue.

The webbed and ribbed prophyl cup readily adapts to tooth contours, controlling splatter and flares uniformly for better subgingival access. Upgrade is non-latex and odor free, so you don't have to worry about allergies or sensitivity. Available in soft or firm.

Perhaps it's time you treat yourself to an Upgrade... in comfort, ease-of-use and performance.

If you like Upgrade®, you'll love these Sultan products...

Topex® Prophyl Paste

Topex formula rinses easily, leaving no gritty residue. Available in eleven delicious flavors and four grits, to accommodate every patient.

Topex® APF Fluoride Gel

Thixotropic formulation remains in the tray, reducing fluoride ingestion. Fast, 60-second application. Available in five great Topex flavors.

DuraShield®

5% Fluoride Varnish

Unit dose application with an UltraBrush™ prevents separation of fluoride. Sets on contact with saliva, lasts up to eight hours.
